

Stellar International School Basma

OUR MOTTO: DUTY – DISCIPLINE – DETERMINATION

OUR FAITH: Where there is a will, there is a way.

1. Our school is a harbinger of change. We combine science and creativity to nurture and balance the individual aura of every student. With an eye for strengths and weaknesses, our teachers recognize the strength of children to appreciate them and steer them gently to work on the weaknesses with the understanding that all it takes is a little effort and hard work to do it all. Stress management and a peaceful demeanor is what is intrinsic to our methods of teaching and learning. Goals are set and guidance is provided to learn at an individual pace.

Regular assessments and interaction with parents harness additional support to strengthen the self-esteem of one and all. It is appreciation and not criticism that helps the young minds to conquer their fears. In this way, the love of learning is fuelled and learning by doing brings in the confidence to excel by proceeding methodically.

2. The students of the school are divided into four houses.
 1. Sankalp house
 2. Swarajya house
 3. Swadesh house
 4. Swarashtra house
3. To ensure that our students are well equipped with knowledge to face any challenge, we have focused sessions on disaster management, Leadership skills etc.
4. Sports participation inculcates the spirit of positive challenge and sportsmanship among the students and prepares them for the life ahead. Our students participated actively in different sports and won medals, certificates and trophies. Fee concession is being given to students who are

meritarians whose mothers show keen interest in school activities by taking part in different competitions. School being situated in rural area as to be taken care in all respects as no proper guidelines at home, all solutions made at school only and time to time interaction with mother to help their children in tactful manner being guided by staff Principal and staff members. The Director of the school is Shri Sanjeev Goyal.

“Let god earn me my success based on the services to others not all the example”

5. Change is a consistent norm that poses fresh challenges for the world at large. It is felt by one and all, **but** our children, the young in mind and spirit, need to adapt themselves in a way that only stand to learn and gain. Here comes the role of school and a curriculum that is able to amass the true wealth of changing times, whether it is in terms of technology, ideologies or just a wave of contemporary wisdom.

The success of our school, despite the crests and troughs of changing times, can be accrued to the fact that we embrace the change with the basic tenets of humanity that have withstood the tests of time. Yes! We endeavor to groom our children to be peaceful, forgiving and compassionate. We give them roots with the help of ancient wisdom and to fly towards their goals.

We take pride that we take care of the tender souls in the most holistic way. If academic helps them to acquire knowledge then physical activities and sports helps them to have a sharp focus and creative activities instill the fire to discover and innovate. We realize the ideal. Intrinsic to all times, that every child is an individual in his or her own right and therefore exceptionally unique. The curriculum is so designed that it fuels the interest of all, to make learning an enjoyable ride.

We endeavor to give to the world batches of genius human being who will make a mark and brighten the worlds with their unique spark.
